*11102 Eagletrace Drive, New Market, MD 21774*

*Telephone: 301-663-8316 Fax: 301-865-9468*

Dan, Mary, Clarie & Delia

*Daniel Mack 43 was diagnosed February 9, 2008 with (AML) Acute Myelogenous Leukemia. Dan immediately entered John's Hopkins for 4 weeks of Chemotherapy. Dan will require a bone marrow transplant and was lucky enough for his sister, Betsy to be a 6/6 match. Before the bone marrow transplant may take place, Dan's cancer must be in remission. 2 weeks ago Dan was told his leukemia was in remission in the blood but now has spread into his spinal fluid. For the past few weeks Dan has been undergoing out patient chemotherapy and was told April 22, 2008 that he must return to John's Hopkins fulltime because his leukemia is not staying in remission.*

*The plan now is to get him into remission and immediately move to a bone marrow transplant. Dan and his family are mentally very strong but as Dan is unable to work, we as a group of family and friends can help. Seen above with his lovely wife Mary and 2 beautiful children. Daniel Mack graduated from Walkersville High in 1983. He attended college at Towson University. His devotion to his family and friends is just one reason he is loved by so many. Your donations to the PPF (Patty Pollatos Fund) will 100% go to the future needs of Daniel and his family. We can not thank you enough. God Bless.*
